## N O T E

School books, College text-books, and some Prize books formed the nucleus of this Library more than 55 years ago. It has grown by collection of books for the purpose of "knowing something of everything and everything of something", *i.e.*, Philosophy and Law. With the exception of a few old books, the Library contains only modern books or modern editions of Classics.

The order in which the names of authors and books are arranged and printed in this Catalogue is only according to vowels *a, e, i, o, u, w, y*, as they occur first in each name or surname.
